

Hi, my name is Luke Newhart, ^{i'm ten} and I am not related to Bob Newhart. I'm actually a quarter Cuban, and my grand parents live on nasau point, and I went to see them this summer and had a blast. I live in California so there was some jet lag in their ~~some~~ where. When we got there it was midday and I was sitting on the deck, and I hear a very quiet "hi" I look around, no one was there, and then I hear it again "hi" I look again, and at the bottom of the drive way was a girl, my sister walks out on the deck, and asks me who I'm talking to, then I point to the girl at the bottom of the drive way she asked us if we had gone to the beach yet, and I said that we hadn't yet, so I went to ask my mom, and she said yes! So I, and my sister went to the beach with the girl. We found out that she lives in the house across the street her name is Lily, and she's nine, and she has a sister named Dilila, and she's 8.

We had fun the next day we went to my grand parents farm plot it was fun we weeded and picked peppers and tomatoes after that we went to see Lily and Dilila but they were already coming over we held corn to gether after we said good bye we went inside and my mom said we were going tubing obviously I was scared because I had never gone tubing so ya terrified. we went out on my grandfather's boat I was the first to get in the tube when he turned the motor on I realized. THIS IS AWESOME!!! It turns out I really love tubing. we did that for a about two hours then we went in I got to steer on the way back that night we had all the neighbors that had kids, there were 4 girls including my sister there were 9 kids out of all we ate sauriges and hot dog. we also played man hunt its berickley hide and seek tag. after that we went inside to celebrate my sister's birthday (for the fourth time) we ate cake and after everybody left we went to bed.

The next day we got up and learned that we were going tubing again and with some friends that we met last night and they were coming over to tube with us when we got on the boat we went out and started tubing I was the first one in the tube with one of the friend from last night we had so much fun. after that we all sort of did our own thing my older brother went kayaking with my dad, my sister went horse back riding I was the only one home so I went to play with Luly and Dilila but they were tubing so I went to the beach to watch them and they were going so fast when they came in I asked them what they were doing this afternoon. and they said they were going tubing on their big tube the hot dog and they asked me if I wanted come with them so I asked my mom and she said yes so two minutes later I was in the boat, after I got on the tube I realized that 1. their boat was alot faster then my grandfathers boat. 2. I was going to fall off alot and I mean alot alot. about 2 hours later after alot of falling and getting water up my nose, my older brother shows up and gets on the tube with me, Luly and Dilila and we did that for about 30 minuts intil my older brother got off then I stayed on for another 30 min.

uts then I got off and went in for diner for diner we had pizza and not just any pizza New York pizza it was giant I ate two pieces then went to bed.

The next day I went to breakfast and I was going to go fishing for diner so we drove an hour to a marina so we could get on a boat to

94

get fishing we met an man named rob we went to the mithe of the bay the first couple of minutes then my dad got a sand shark then my grand father got a sand shark then I got a sand shark then my dad got some diner then my brother got a big fish we all got some sand sharks and I saw

98

a sea turtle and I got a black basin then we went in and drove an hour then I went to see Lily and Dilila they were going
